

Part 4 - Reflection - For Data and Project (20 pts)

Students will **type a 1-2 page summary and written reflection** about their health project.

Within the summary, the following topics should be addressed:

Summary of data and results: (10 pts total)

- 1) Describe your project briefly (Issue and solution) (2pts)
- 2) Discuss what data you collected (8 pts, 4 pts each)
 - Describe what did the data tell you about how effective your project was. (Did it work? Be specific, use data results as evidence)
 - Describe the accuracy of these results (was it expected, were there sources of error, did you pick the right way to collect data?)

Written Reflection: (10 pts total)

- 1) From the overall project, describe what kind of impact you think you had on your target audience's health. Positive/Negative/No difference? (1 paragraph minimum) (5pts)
- 2) Describe the highlights of what you learned during this project. What did you feel was the most important thing you learned? What would you do differently if given a second opportunity?
