

Follow the instructions below, making sure to:

- Answer with your own words/thoughts
- Be honest, respectful, and helpful

Now after this past year, what does the word “science” mean to you? How would you **explain** it with your own words?

Describe your experiences with “science” this past year...

topics we covered this year include: (water, Hawaii, health, Mars, plants)

What suggestions could you provide that would help me to become a better teacher?
